Idea

Grid of notes; icon
depends on attachments

Each icon shows 1 to 4
representations of their
attachments:

- T for text,
- thumbnail for image,
- play button for audio,
- map thumbnail for location,
- file icon for any other file

>4 attachments = show
first 4

This screen works on
iPhone and iPad

Settings	Done
Require Touch ID	<input checked="" type="checkbox"/>

When enabled, notes grid will require Touch ID before allowing access to the app

This button is disabled if Touch ID is unavailable

Shows add new
attachment screen

Tap and hold enters edit mode, replaces
the + button with Done and makes
deletion buttons appear

Day at the Beach

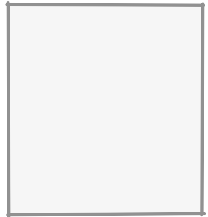

Image

Sound

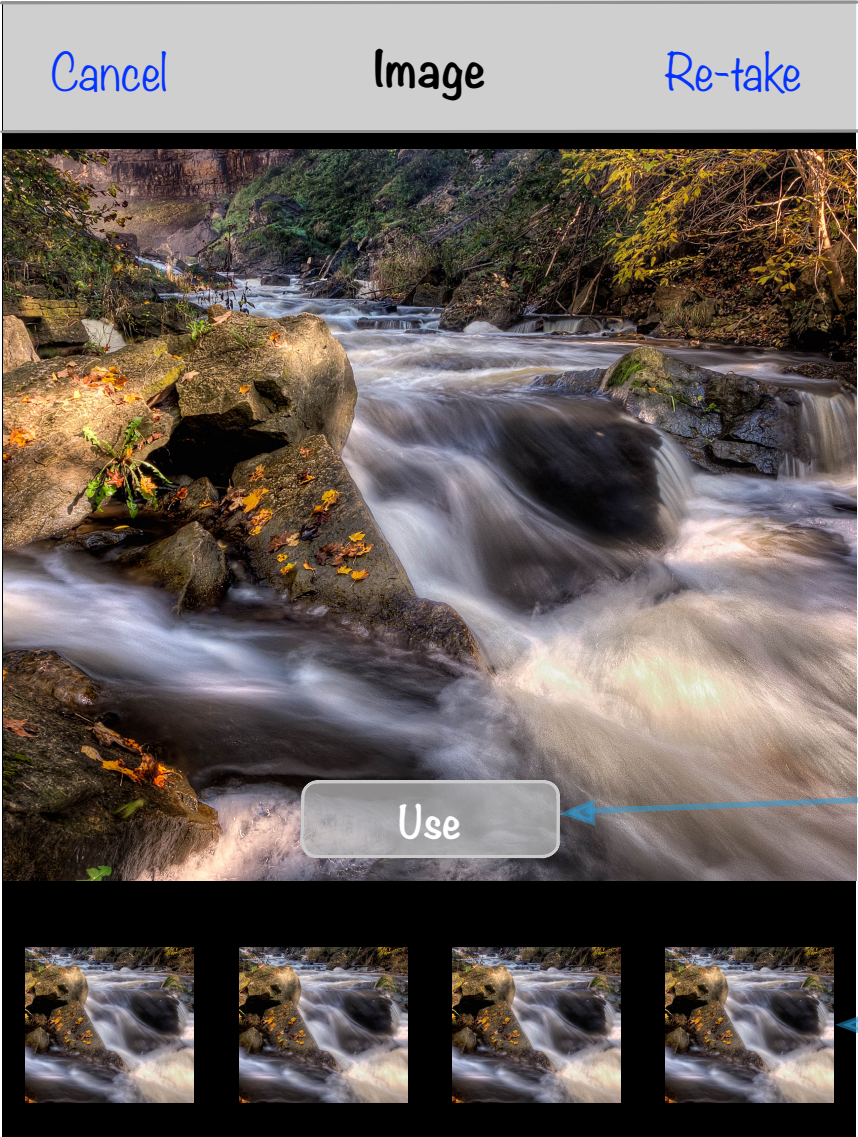

Video

Location

Grid of different types of
attachments

Returns to the attachment screen

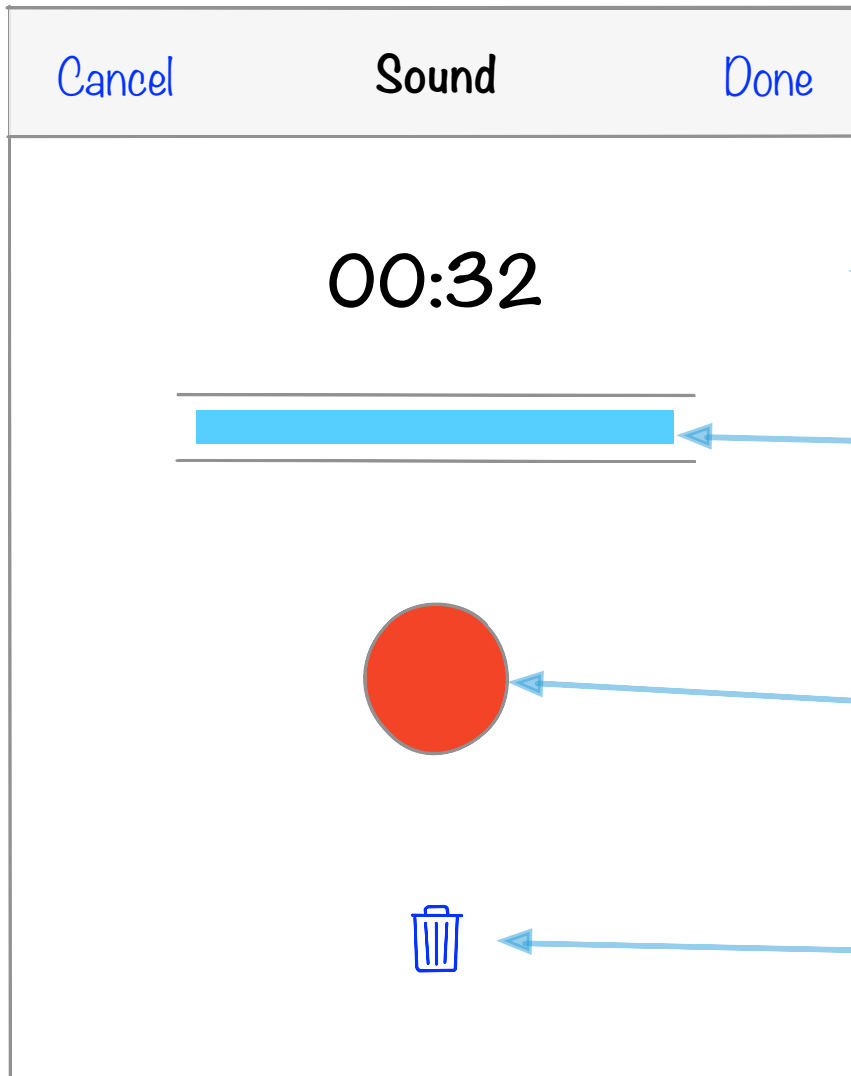

Returns to the camera view

Video view is identical but doesn't provide filters

Attaches the image to the note and returns to the note

After taking a picture, present it along with an array of filtered versions

Cancel

Sound

Done

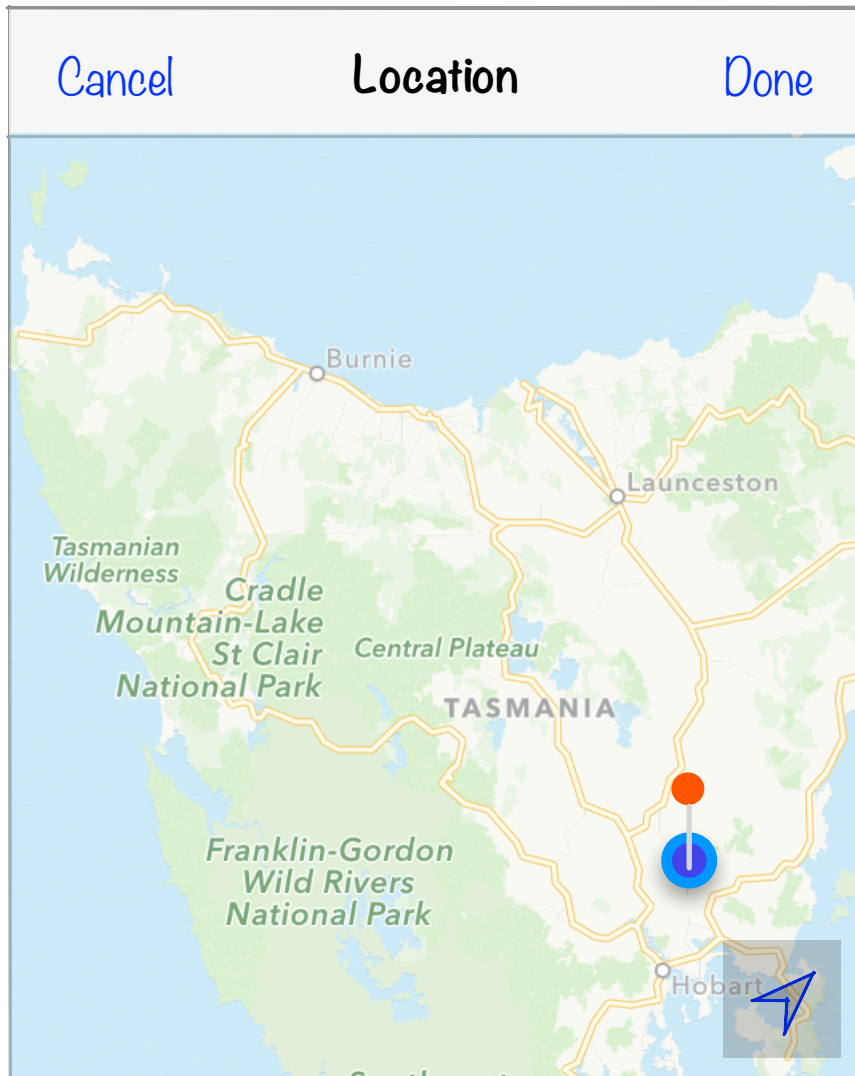

00:32

Shows recording length;
updates during recording

Level meter, updates while
recording

Changes to a Stop
button when recording;
Changes to a Play
button after recording
done

Clears current recording; only appears
if audio exists

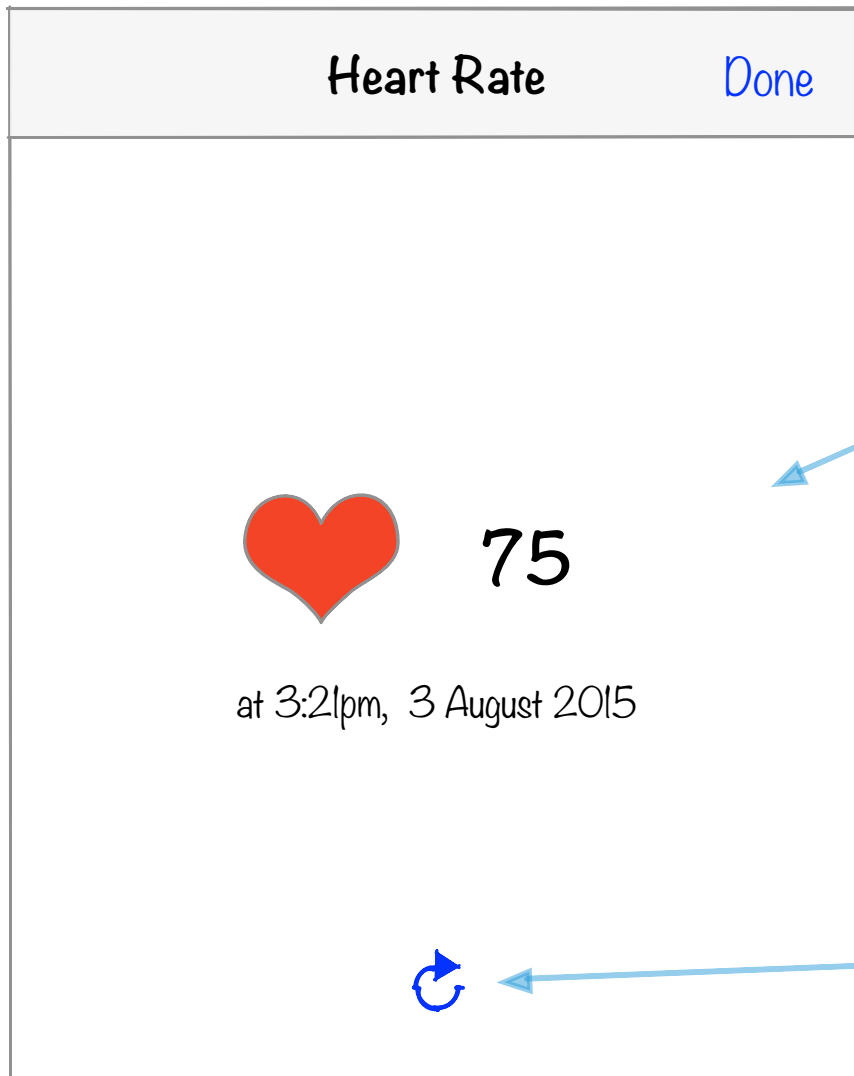

Current location only
visible if the app has
permission to know it

If user position isn't
available, add the pin to
a default location

Pin can be dragged

Focuses map on current location

Heart Rate

Done

Shows heart rate at the given date

Date defaults to 'now' when the attachment is created

The heart rate data is never cached, just the date - this means the user can cut off access to the app

Updates heart rate data to most recent
